

Advance Care Planning Workflow Tool for PCPs

Developed for NYS MOLST/eMOLST by Dr. Patricia Bomba

Medicare Wellness Visit Screening Questions

1. Does my patient have a health care proxy?
2. Do I have a copy of the health care proxy?
3. Has the patient shared their values, beliefs and goals for their care?
4. Has the person spoken with their family?
5. Is my patient appropriate for MOLST?

MOLST Paradigm Screening Questions

1. Does the person express a desire to avoid or receive any or all life-sustaining treatment?
2. Does the person live in a nursing home or receive long term care services at home or in an ALF?
3. Would you be surprised if the person dies in the next year?
4. Does this person have one or more advanced chronic condition or a serious new illness with a poor prognosis?
5. Does this patient have decreased function, frailty, progressive weight loss, ≥ 2 unplanned admissions in last 12 months, have inadequate social supports, or need more help at home?

Questions to Help an Individual Prepare for A MOLST Discussion

1. What do you understand about your current health condition?
2. What do you expect for the future?
3. What makes life worth living?
4. What is important to you?
5. What matters most to you?
6. How do you define quality of life?
7. Would you trade quality of life for more time?
8. Would you trade time for quality of life?
