Step I: Assess health status and prognosis.
 a. Current Health Status, using the Modified Lansky Play-Performance Scale <i>Check one</i>.
 b. Estimated Prognosis Check one. Days to weeks _ Weeks to 3 months _ 3 Months to 6 months _ 6 Months to < I year _ > I year
Step 2: Identify the decision-maker.
Minor patient's parent or guardian. It has been determined that the parent or guardian has legal authority to make medical decisions for the minor patient. (Seek legal advice if the decision-maker's authority is unclear.)
 Step 3: Document where the MOLST form is being completed. Check one: Hospital (see Glossary for definition) Nursing Home (see Glossary for definition) Community (see Glossary for definition)

January 2013

Step 4: Discuss goals for care with the parent or guardian who will make the decision. Review what the parent/guardian knows and wants to know about the patient's condition/prognosis. Provide new information about patient's condition/prognosis. Explore common understanding and differences. Determine next steps needed to resolve any differences. Briefly summarize content of discussion with the parent or guardian and the patient's goals for care. Step 5: Parent or legal guardian has given informed consent to the treatment decision. Check all: Parent or legal guardian has been fully informed about the patient's medical condition and the risks, benefits and burdens of, and alternatives to, possible life-sustaining treatment. Parent or legal guardian has consented to the withholding, withdrawal or delivery of certain life-sustaining treatment, for which medical orders are written. Parent's or legal guardian's decision is patient-centered, in accordance with the patient's wishes, including the patient's religious and moral beliefs; or if the patient's wishes are not reasonably known and cannot be supported to the patient's wishes are not reasonably known and cannot be supported to the patient's wishes are not reasonably known and cannot be supported to the patient's wishes are not reasonably known and cannot be supported to the patient's wishes are not reasonably known and cannot be supported to the patient's wishes are not reasonably known and cannot be supported to the patient's wishes are not reasonably known and cannot be supported to the patient's wishes are not reasonably known and cannot be supported to the patient's wishes are not reasonably known and cannot be supported to the patient's wishes are not reasonably known and cannot be supported to the patient's wishes are not reasonably known and cannot be supported to the patient's wishes are not reasonably known and cannot be supported to the patient's wishes are not reasonably known and cannot be supported to the patient's wishes are not reasonably k	Last Nai	me/First Name/Initial of Patient	Date of Birth (MM/DD/YYYY)

Step 6: If the decision is to withhold or withdraw life sustaining treatment, the parent's or legal guardian's decision complies with the following clinical standards, as determined by the physician, with independent physician concurrence and, where applicable, by an ethics review committee. Check (i) and/or (ii) and (iii) and any applicable lines underneath:

- (i) Treatment would be an extraordinary burden to the patient, and an attending physician determines, with the independent concurrence of another physician, that, to a reasonable degree of medical certainty and in accord with accepted medical standards,
 - the patient has an illness or injury which can be expected to cause death within six months, whether or not treatment is provided; or
 - the patient is permanently unconscious.

(ii) The provision of treatment would involve such pain, suffering or other burden that it would reasonably be deemed inhumane or extraordinarily burdensome under the circumstances; **and** the patient has an irreversible or incurable condition, as determined by an attending physician with the independent concurrence of another physician to a reasonable degree of medical certainty and in accord with accepted medical standards.

Note: The following special requirements do <u>not</u> apply to a decision for a patient in hospice or to a decision to withhold or withdraw life-sustaining treatment under clinical standard (i) above (death is expected within 6 months with or without treatment, or patient is permanently unconscious).

- Special requirements for declining artificial nutrition and hydration in a hospital (other than a hospice) over the attending physician's objection, based on "irreversible or incurable condition" (clinical standard (ii) above):
 - In a hospital (other than a hospice), when the medical order involves the withdrawal or withholding of nutrition or hydration provided by means of medical treatment, and the attending physician objects to the order, the ethics review committee (including a physician who is not directly responsible for the patient's care) or an appropriate court has determined that the medical order meets the patient-centered and clinical standards.

Step 8	: Notify minor patient of capacity determination. Check one
	Notice of the determination that the minor patient lacks medical decision-making capacity has been given to the minor patient (the patient may be able to comprehend such notice).
	Notice of the determination that the minor patient lacks medical decision-making capacity has not been given to the minor patient because there is no indication of the patient's ability to comprehend the information.
Step 9	Notify other parent or guardian besides the one who consented in Step 5. Check one.
	There is a parent or guardian other than the one who consented in Step 5, and that parent or guardian has been informed of the decision.
	There is no reason to believe that the minor patient has a parent or guardian other than the one who consented in Step 5.
	There is reason to believe that the minor patient has a parent or guardian other than the one who consented in Step 5, and that parent or guardian (including a non-custodial parent or guardian) has not been informed of the decision. Reasonable efforts have been made to determine if the un-informed parent or guardian has maintained substantial and continuous contact with the minor; and: <i>Check (i) or (ii)</i>
	(i) It has been determined that the un-informed parent or guardian has not maintained substantial and continuous contact with the minor.
	(ii) It has been determined that the un-informed parent or guardian has maintained substantial and continuous contact with the minor. The other parent or guardian could not be notified after diligen efforts were made to do so.
